

Prospective question audit · no primary question admitted

B · Residual sleep-disease genetic covariance jointly...	2	4	1	2	1	3	1	1	3
A · Same disease genetic correlation difference between...	1	4	2	2	1	3	0	1	3
D · Sleep genetic covariance with clinically prespecified...	1	3	2	1	1	3	0	1	3
E · Independently supported locus-level sleep-disease...	1	3	0	1	0	2	0	0	3
C · Univariate relationships absent from prior composite...	0	2	2	1	1	2	0	1	2
	Novelty	Rationale	Data	Statistical validity	Power	Clinical relevance	Independent test	Feasibility	Stopping rule

Reviewer ordinal scores (0–4), not biological results. All five fail at least one hard admission gate.
